

KONICA MINOLTA

Never misplace a document again with fast and reliable searches that enable everyone in your office to find any document instantly -- whether it's local or on a network folder.

More productive scanning with bizhub multifunctional devices and bizhub PRO printing systems, to bring documents to your desktop faster and share information more easily with workgroups.

All-in-one functionality for document acquisition and workflow enhancement, including imaging, archiving, editing and management tools.

Create industry-standard PDF files from your bizhub MFP or PC applications, including Microsoft® Office.

PDF conversion automatically converts scanned documents and existing electronic files to searchable PDF files and popular word processing formats in a one-step process, yielding files that can be fully text-searched or integrated into word processing and spreadsheet applications.

Integrated batch processing allows "hands-off" digital archiving, so files can be routed where they are needed and projects can be scheduled overnight or at specific times.

Simple desktop interface

lets you manage your documents in local or network folders or on removable media drives, index documents, add annotations, and integrate scanned images into target applications more easily.

Thumbnail display of both scanned images and digital documents -- application thumbnails for PDF and MS Office formats, image thumbnails for TIFF, JPEG, and BMP files help you locate documents by sight quickly and easily.

Drag-and-drop integration of scanned images into desktop or enterprise applications in one easy step.

Convert Text files into other text application formats; for instance, Word to WordPerfect.

Create distributable electronic forms that can be sent to employees, clients, and partners.

Assemble PDF Documents right on the PaperPort Desktop -- stack, unstack, and re-order pages.

Documents and images can be combined from multiple sources and applications without extra steps.

Enterprise system productivity gives company-wide content management systems simple front-end scanning capabilities for faster access to scanned images.

Document Management Solution. Scan documents on your bizhub MFP. Convert them to searchable PDF. Deliver them directly to your desktop PC. Add annotations. Combine files. Edit documents. Capture text. And do it all with one simple, integrated solution.

unityDesktop™ Professional

The essentials of imaging

unityDesktop™ Professional

Automate your acquisition with unityDesktop™ Professional.

Multiple workflow enhancements in a single solution.

What happens to the documents you scan? Where do they go? What form do they take? How do they enter your workflow? With unityDesktop™ software, you'll have clear, simple answers to these questions – and your bizhub multifunctional device will become an even more powerful tool for speeding information flow and increasing productivity.

OmniPage® Pro: It automatically converts scanned images to fully text-searchable PDF files and useable Microsoft® Office documents and distributable forms in a single step, so you can repurpose paper documents, edit text, combine files and unlock information that was previously unavailable to serve your business needs.

System Components

UNITYDESKTOP™ PROFESSIONAL SOLUTION:
OmniPage® Pro 15
PaperPort® Professional 10

Instead of delivering documents to an Email account or an obscure network or local folder with no notification, unityDesktop makes scanning and acquisition a seamless process from bizhub to desktop. No more time-consuming multi-step processes to bring documents into your workflow; each new scanned image is automatically converted to a PDF file and made available in a simple PC desktop interface – all in the time it takes to return to your desk.

PaperPort® Professional is the most productive and cost-effective way for everyone in your office to organize, find, and share paper and PDF documents. PaperPort Professional combines the efficiency of document management, the convenience of network scanning, and the power of PDF document creation and assembly.

With unityDesktop, you'll have all the acquisition tools you need to manage scanned documents more quickly and cost-effectively – and a perfect match for your bizhub MFP or bizhub PRO printing system.
